MEMORANDUM FOR ALL AFROTC UNITS

FROM: HQ AFROTC/DO
60 West Maxwell Blvd
Maxwell AFB AL 36112-6103

SUBJECT: Introductory Note to Air Force Reserve Officers' Training Corps Instruction (AFROTCI) 36-2011, Vol 1, *Cadet's Guide to Leadership Laboratory (LLAB) Curriculum*

This revised syllabus serves as the approved guidance for Air Force Senior ROTC units in conducting Leadership Laboratory (LLAB) and is provided for immediate implementation as appropriate. The Samples of Behavior have been re-organized, combined, and packaged into Training Objectives. The Sample of Behaviors are identified the Related Lessons portion. The Training Objectives were organized into each Program Learning Outcome (i.e., Leader of Character, Disciplined Professional, Effective Communicator, Warfighter, and Strategic Minded Officer). In addition, a few more Training Objectives have been added to meet accession requirements (see Summary of Changes) and develop cadets' warrior ethos; however, no substantive changes were made to any previously published SOBs.

The intent of the syllabus revision is to align classroom academics to Leadership Laboratory events and activities, thereby reinforcing the knowledge attained in the classroom and assessed in a more dynamic physical or hands-on environment. Each Training Objective within the respective Program Learning Outcome offers objective performance measures for cadre to adequately assess General Military Course cadets' and Professional Officer Course cadets' progress within each Training Objective. The change from Institutional Competency – Sub-competency to Related Lessons provides a succinct traceability to lessons taught in the classroom.

In addition, a wargaming repository is currently in development, and the expected full release will be provided by next calendar year. Given that this revision is being published right before most schools start, Detachment Commanders are empowered to implement changes judiciously so as not to unnecessarily disrupt the continuum of training already happening at their locations.

//signed/ejv/6 Aug 26//
ERIC J. VISGER, Col, USAF
Director of Operations, HQ Air Force ROTC

SUMMARY OF CHANGES

This revision:

(1) The Training Objectives are in categories as it relates to Program Learning Outcomes (PLOs).

(2) Identified terms of Samples of Behaviors (SOBs) taught in classroom are now embedded into the specific Training Objectives (TO) located in the related lessons section.

(3) Combined several SOBs into Training Objectives.

(4) Added: Leader of Character, Training Objective 2.3 Sexual Assault Prevention and Response program.

(5) Added: Warfighter, Training Objective 1.2 Applying fitness principles to lead and enhance readiness of the human weapons system and 1.3 Applying wargaming principles to analyze and solve a tactical problem.

(6) Added Expeditionary Skills, Training Objective 2.4 Apply the AEW 2.0 concept.

This publication has been reviewed and approved by competent personnel of the preparing command in accordance with current directives on doctrine, policy, essentiality, propriety, and quality. The views and opinions expressed or implied in this publication do not carry the official sanction of the Air Education and Training Command or the Department of the Air Force (DAF).

PREFACE

The purpose of this text is to ensure cadre and Professional Officer Course (POC) cadets develop a meaningful and stimulating Leadership Laboratory (LLAB) course for your detachment. Please keep in mind the structure of the course is up to you and your Operations Flight Commander (OFC) or Operations Officer. You are required to teach and train all LLAB training objectives ensuring the Program Learning Outcomes (PLOs) are achieved. You may provide opportunities throughout the academic year in any order that benefits the organization as approved by your OFC. The Detachment Commander is the waiver authority for objective completion and performance levels for individual cadets unless delegated to the OFC.

Professional Officer Course cadets are those who have completed field training and should be used to assist with Practical Military Training (PMT) through LLAB and as mentors for special projects. AFROTC 36-2011, Volume 3, Cadet Operations is the source document for conduct and expectations of all ROTC students. Morale and team-building activities should be an inherent focus of cadet leaders and detachment staff for PMT in order to maintain a viable commissioning source. Training objectives are proficiency-based and assessed at a knowledge level or a performance level. The design of the AFROTCI 36-2011 Vol 1 and its associated training objectives provides ample opportunity and flexibility for detachments to recruit, train, and commission the world's best Air Force and Space Force Second Lieutenants.

Critiques, suggestions, and comments are welcome!

Please address any critiques, suggestions, comments, or corrections through your OFC. Cadre will forward appropriate recommendations to their Regional AFROTC Curriculum Crowdsourcing Team, which will be forwarded to:

Jeanne M. Holm Center for Officer Accessions and Citizen Development/DECF

Attn: Field Leadership, Chief

AFROTCI 36-2011 Volume 1 - LLAB GUIDEBOOK

Leadership Laboratory Mission Statement:

"The Detachment Commander will provide a dynamic and integrated grouping of leadership practicums throughout the AY that is designed to complement the AFROTC academic program IOT meet the needs and expectations of prospective DAF second lieutenants."

This Cadet's Guide to Leadership Laboratory Curriculum (LLAB Guidebook) is designed for the Professional Officer Course (POC) cadets and cadre to use as a reference tool to successfully execute LLAB events. This tool is not meant to be all inclusive; however, it will serve as a guide for detachment training operations. LLAB events allow cadets to apply the knowledge and skills learned in AS classes and other Practical Military Training (PMT) events. LLAB is accomplished at three different levels. First, General Military Course (GMC) cadets gain knowledge, receive peer mentorship and have opportunities to carry out activities and events through practical application. Second, LLAB gives POC cadets an opportunity to practice their leadership skills through planning and executing missions while providing feedback to GMC cadets. Lastly, cadre provide guidance and feedback to the POC cadets concerning their planning, execution, and mentorship to GMC cadets. As a POC cadet, LLAB is your chance to practice leadership skills and start developing your leadership philosophy ensuring you leave AFROTC as a confident and competent leader of character ready to serve the needs of the Department of the Air Force.

Normally, cadets are classified as AS100, AS200, AS300 and AS400 cadets corresponding to the academic course in which they are enrolled. Though this classification system works well for most cadets, it may not apply in all situations. Therefore, it may be more practical to classify and assign cadets according to where they are with respect to Field Training (FT) attendance & commissioning. For this reason, the following objectives must be satisfied:

Basic Cadet (BC) - Cadets who are part of the GMC but are not scheduled to attend Field Training, normally AS100.

Basic Cadet Leader (BCL) - GMC cadets scheduled to attend FT in the upcoming year, normally AS200, AS250, or AS500.

Intermediate Cadet Leader (ICL) – POC cadets returning from FT, normally AS300.

Senior Cadet Leader (SCL) – POC cadets scheduled to be commissioned in the upcoming year, normally AS400.

Each training objective contains the following:

Requirements: This is an expanded definition of the training objective.

References: Supporting materials & locations to find the information pertaining to activity/lesson execution. All AF forms & publications are available at https://www.e-publishing.af.mil/ or the Reserve Officer Training Corps Teams page.

Related Lessons: These are lessons that when combined with the training objective reinforces ideas, concepts, and samples of behavior from flight room lessons and discussions.

Instructor: Recommended instructor-level; NOTE: Training objectives require a POC instructor who is approved by Detachment staff and has demonstrated advanced knowledge of the LLAB training objectives. This ensures instruction is aligned with the principle that cadets are best prepared for each successive step through the established incremental training program.

Additional Information: Notes and suggestions to consider when planning training.

Objective Proficiency Codes:

Intent: The proficiency code identifies the desired skill level per the appropriate cadet level. The training should be designed to achieve the desired level of proficiency as stated on each objective. Inherently, a higher level of training proficiency is required for POC cadets teaching certain skills. Therefore, demonstrated advanced knowledge of all prerequisite Leadership Laboratory (LLAB) training objectives is required prior to instructing. Cadre retains the authority, on a case-by-case basis, to approve a cadet to formally instruct, or evaluate based on an individual assessment of their maturity, experience, and demonstrated proficiency, independent of their formal progress in the training curriculum.

These proficiency codes are closely related to **Bloom's taxonomy, which is used in Academic Instructor training.** The three levels of Bloom's most closely related are the Remember, Understand, and Apply levels.

Most of the LLAB lesson objectives are cadet planned, organized, and executed under the supervision of the Detachment Commander and Operations Flight Commander.

Objective Proficiency Code Key	
Scale Value	**Definition: The Individual**
Task Knowledge Level (K)	**Subject Knowledge Training: The verb selection identifies the individual's ability to identify facts, state principles, analyze, or evaluate the subject**
Ka	Recall basic facts from memory **(Bloom's Remember)**
Kb	Summarize basic facts from memory and draw conclusions about subject **(Bloom's Understand)**
Task Performance Level (P)	**Performance Training: Identifies that the individual has performed the task to the satisfaction of the course; however, the individual may not be capable of meeting the field requirements for speed and accuracy (Bloom's Apply)**
P1	Can do most parts of the task. Needs only help on hardest parts (Partially Proficient - do/participate)
P2	Can do all parts of the task. Needs only a spot check of completed work (Competent - command, direct)
P3	Can do the complete task quickly and accurately. Can tell or show others how to do the task (Highly Proficient - coach/mentor, supervise, instruct)
Note: Proficiency is intended to move from Knowledge to Performance. If an individual achieves a performance proficiency, it is assumed that knowledge has been achieved as well.	

AFROTCI 36-2011 Volume 1 Objective Table					
Leader Of Character		**BC**	**BCL**	**ICL**	**SCL**
AFROTC Honor Code					
****1.1**	Define the elements of the AFROTC Honor Code.	Kb			
****1.2**	Describe the procedures for reporting a suspected Honor Code violation and improper applications of the Cadet Honor Code.	Ka	Kb		
Effective Followership, Leadership, and Teamwork Skills					
2.1	Demonstrate effective followership and leadership through small team building exercises.	P1	P2	P3	
2.2	Execute medium scale activities (physical training or other special events) that includes an effective debrief.		P1	P2	P3
****2.3**	Understand a leader's ethical responsibilities within the Sexual Assault Prevention and Response (SAPR) program.	Kb			
Preparation for Active Duty					
3.1	Implement the Cadet mentoring program.			P1	P2
3.2	Practice leadership and management skills and proper feedback and performance evaluation skills.		P1	P2	P2
3.3	Illustrate the proper use and writing of the Airman Comprehensive Assessment (ACA) and Airman Leadership Quality narrative statements.			P1	P2
3.4	Complete elements and mechanics of Officer Performance Briefs, Enlisted Performance Briefs, awards, and decorations.			P1	
****3.5**	Understand DAF in-processing requirements.				Kb

Disciplined Professional		BC	BCL	ICL	SCL
Department of the Air Force and AFROTC Grade Structure and Insignia					
****1.1**	Identify rank structure by insignia and grade for AFROTC; DAF enlisted, warrant officer, and officer; and joint services officer corp.	Ka			
Department of the Air Force and AFROTC Chain of Command					
****2.1**	List and explain the chain of command from POTUS through the DAF to the individual cadet.		Kb		
Department of the Air Force Customs and Courtesies					
3.1	Practice DAF customs and courtesies in respect to peers, superiors, and subordinates through proper saluting, reporting procedures, and informal and formal activities.	P1	P2	P3	
3.2	Describe proper procedures for display of the flag, outdoor and indoor ceremonies, folding the flag, retreat, and reveille.	P1	P2	P3	
Military Ceremonies and Protocol					
****4.1**	Discuss official ceremonies (award, change of command, retirement, commissioning, and promotion), protocol, and procedures to include dining-in and dining-out activities.	Ka	Ka	Kb	
Department of the Air Force Dress and Appearance Standards					
5.1	Demonstrate proper DAF grooming, dress, and appearance standards.	P1	P2	P3	
Drill Positions and Movements					
6.1	Demonstrate drill fundamentals and drill of the flight and squadron at the basic, intermediate, and advanced levels through marching, open ranks inspection, and road guard procedures.	P1	P2	P3	

Effective Communicator		BC	BCL	ICL	SCL
Effective Communication for Impact					
1.1	Demonstrate clear and concise communication throughout all ROTC training and education events IOT accomplish a given mission.		P1	P2	P3
****1.2**	Describe the appropriate usage of the official memorandum and AF E-Publishing.			Kb	
Communicating for Understanding and Cooperation					
2.1	Demonstrate the ability to actively listen to understand diverse perspectives, articulate their own ideas clearly and respectfully, and facilitate collaborative discussions to achieve shared goals.	P1	P2	P3	
Purposeful and Strategic Communication Skills					
3.1	Demonstrate the ability to apply purposeful and strategic communication skills to effectively persuade stakeholders, negotiate favorable outcomes, and build consensus on critical issues.		P1	P2	P3
3.2	Demonstrate the ability to communicate effectively to inspire teams, align them with organizational goals, and effectively manage change.	P1	P2	P3	
3.3	Demonstrate the ability to define clear and measurable communication objectives aligned with broader organizational goals.		P1	P2	P3
3.4	Demonstrate the ability to select and utilize appropriate communication channels (e.g., email, social media, presentations, reports) to maximize reach and impact.		P1	P2	P3
Warfighter		**BC**	**BCL**	**ICL**	**SCL**
Understand how the Air Force Employs Warfighting Assets					
****1.1**	Summarize the DAF mission, purpose, core competencies, and warfighting assets.	Ka	Kb		
1.2	Apply fitness principles to lead peers and enhance readiness of the human weapon system.	P1	P2	P3	

1.3	Apply wargaming principles to analyze and solve a tactical problem.		P1	P2	P3
Expeditionary Skills					
****2.1**	Differentiate the types of operational orders and their uses.		Ka	Kb	
****2.2**	Discuss the considerations for operating in secured and/or hostile environments.		Ka	Kb	
2.3	Utilize basic TTPs to respond to attacks and threats that include UXO/IED, sUAS, base defense procedures, and active shooter response.	P1	P2	P3	
2.4	Apply the AEW 2.0 concept to build, prepare, and certify the Cadet Wing into a cohesive, mission-ready Unit of Action (UoA).			P1/P2	P2/P3
Strategic-Minded Officer		**BC**	**BCL**	**ICL**	**SCL**
US National Security Essentials					
****1.1**	Explain how U.S. values, government, and global issues affect national security decisions.			Ka	Kb

It is important to understand that not all training objectives within the Leadership Laboratory (LLAB) Guidebook are formally graded. There are a number of the non-graded objectives that are knowledge-based, focusing on foundational concepts like defining key terms or recalling leadership principles. While this information provides the essential building blocks for development, the mastery of these specific, non-graded objectives is generally not a direct requirement for meeting the overarching Program Learning Outcomes (PLOs). The program's formal assessment of a cadet's proficiency against the PLOs is primarily concentrated on the graded, performance-based objectives. These require the cadet to actively apply their knowledge in practical scenarios, providing tangible evidence of their ability to perform as a future officer, rather than simply their capacity to recall information.

Items identified with a double asterisk (**) in the chart above are considered NON-GRADED and will not be formally assessed.

Evaluator's Note: The performance measures listed below are not all-inclusive. To ensure a proper assessment, SCLs and Cadre are encouraged to use their professional experience and training to provide quality, holistic feedback that accurately captures the cadet's performance in the spirit and intent of each training objective as it relates to Program Learning Outcomes.

PROGRAM LEARNING OUTCOMES AND TRAINING OBJECTIVES

LEADER OF CHARACTER

Program Learning Outcome: The graduate will be able to demonstrate ethical leadership through effective decision-making in personal, team, and organizational contexts.

1. AFROTC Honor Code

****1.1 Training Objective:** Define the elements of the AFROTC Honor Code.

Requirements: This lesson is designed to teach the Cadet Honor Code. It should be taught by a BCL with cadre participation. Cadets are required to know the intent and purpose along with the four elements of the Honor Code.

Performance Measures:

1. Recalls the four elements of the AFROTC Honor Code.
2. Identifies the intent and purpose of the Code in promoting integrity and trust.
3. Describes how honesty and moral courage support team cohesion.
4. Explains how ethical decision-making aligns with DAF Core Values.
5. Demonstrates adherence to the Code during simulated or real ethical situations. (Optional)

References: AFROTCI 36-2011, VOL 3 Cadet Operation*; DAFH 1, Airman*

Related Lesson/s: Core Values (AS100); Ethical Decision-Making series (AS200 & AS300)

Instructor: BCL with cadre participation, ICL with cadre guidance, or SCL

Additional Information: This should be one of the first lessons presented to new cadets.

****1.2 Training Objective:** Describe the procedures for reporting a suspected Honor Code violation and improper applications of the Cadet Honor Code.

Requirements: Cadets will know the Cadet Honor Code and understand the procedures for reporting suspected violations. Emphasis should be placed on utilizing the cadet chain of command and direct cadre involvement when necessary. Additionally, cadets should be able to summarize the proper and improper use of the Cadet Honor Code. Emphasis should be focused on improper questions, questions without purpose, and questions without probable cause. Lastly, cadets should be able to identify the difference between breaking a rule and violating the Cadet Honor Code.

Performance Measures:

1. Recalls proper channels for reporting violations.
2. Identifies differences between policy infractions and Honor Code breaches.
3. Describes steps for initiating a report using cadet and cadre channels.
4. Explains appropriate standards of confidentiality and professionalism.
5. Demonstrates proper reporting conduct in a simulated ethical scenario. (Optional)

References: N/A

Related Lesson/s: Core Values (AS100); Ethical Decision-Making series (AS200 & AS300)

Instructor: BCL with cadre participation, ICL with cadre guidance, or SCL

Additional Information: This should be one of the first lessons presented to your new cadets. Detachments will have different methods to report violations, and the process should be understood by all cadets at each respective detachment.

2. Effective Followership, Leadership, and Teamwork Skills

2.1 Training Objective: Demonstrate effective followership and leadership through small team building exercises.

Requirements: This objective can be accomplished through mission scenarios, team building exercises, or assigned special projects. As the development of effective followership skills is an evolutionary process, cadets should demonstrate effective followership skills IAW the current academic models. To obtain the required proficiency level, cadets should be able to demonstrate strong participation skills while being effective contributors, demonstrate a strong understanding of followership skills, anticipate the needs of the leader, perform their roles based on the leader's intent, and evaluate the followership of team members using the AFROTC Followership Evaluation Form. Like followership, the development of effective leadership skills is an evolutionary process, cadets should demonstrate effective leadership skills IAW the current academic models. To obtain the required proficiency level, cadets should be given an opportunity to apply the basics of leadership throughout their first year in the program with a focus on leading small teams towards mission accomplishment. Additionally, cadets should be able to apply all aspects of leadership skills, effectively lead teams, and evaluate the performance of team leaders using the AFROTC Field Leadership Evaluation Form.

Performance Measures:

1. Takes initiative to begin their assigned task without further prompting.
2. Issues a clear plan of action within a reasonable timeline.
3. Assigns specific, individual tasks to each team member.
4. Adjusts the initial plan appropriately based on team feedback or changing circumstances.
5. Demonstrates effective teamwork, discipline, and followership during group events.

References: *The Airman Handbook*

Related Lesson/s: Followership (AS100); Initiative (AS100); Problem Solving (AS100); Listening (AS200); Full-Range Leadership (AS200); Team Building (AS200); Leadership series (AS200 & AS300); Motivation (AS300)

Instructor: ICL with cadre guidance or SCL

Additional Information: N/A.

2.2 Training Objective: Execute medium scale activities (leadership laboratory, physical training or

other special events) that includes an effective debrief.

Requirements: This objective seeks to assess the group leadership skills of project officers in charge of leading, planning, and executing medium scale events such as Leadership Laboratory, Physical Training, or special events. ICL cadets should be able to demonstrate effective planning skills, time management, and leadership behaviors upon completion of this objective. Furthermore, this objective seeks to instill the concept of mission debrief into all AFROTC training activities with a goal of building a culture of learning through shared experience. The progression of this objective requires cadets to debrief training events by facilitating group discussion, recalling points of failure and/or success, and identifying learning points while fully appreciating the concept of an effective debrief and how it ties to future mission success, identifying root causes, pinpointing catalysts for success, and capturing critical learning points from the activity. SCL cadets should be highly competent, proven project managers and leaders, and be able to effectively evaluate the performance of subordinate cadets.

Performance Measures:

1. Develop a comprehensive written plan, that includes a risk assessment, for the event.
2. Use appropriate delegation to assign roles to subordinates.
3. Execute a formal pre-event briefing to all participants.
4. Implement a contingency plan in response to an unexpected problem.
5. Conduct a post-event debrief using a structured feedback model.

References: N/A.

Related Lesson/s: Initiative (AS100); Problem Solving (AS100); Listening (AS200); Full-Range Leadership (AS200); Team Building (AS200); Leadership series (AS200 & AS300); Establishing Expectations (AS300); Organizational Leadership Theory (AS300); Motivation (AS300); Managing Competing Priorities (AS300)

Instructor: SCL with cadre guidance

Additional Information: Cadets commonly mistake end-of-scenario feedback for debriefs. While feedback is primarily focused on the individual being evaluated, a debrief is the team's opportunity to openly discuss "how" the mission was executed, drill down to the root cause for any issues that occurred during the mission and focus on areas of learning to help propel the team to future success. The debrief process is deeply rooted in the aviation community, however, the concepts can be applied cross-functionally. The instructor should strive to note the value of candid and constructive debriefs as a foundational element of continued officer professional development and mission accomplishment.

****2.3 Training Objective:** Understand a leader's ethical responsibilities within the Sexual Assault Prevention and Response (SAPR) program.

Requirements: This training requires a private, controlled environment conducive to sensitive discussions. All participants must be provided with scenario-based case studies detailing potential "red flag" behaviors, bystander intervention opportunities, and reporting dilemmas. A subject matter expert, either the Detachment SAPR Victim Advocate or a certified instructor, must be present to facilitate the discussion and provide accurate information. Cadets will need access to key reference materials outlining reporting options (restricted vs. unrestricted) and the specific responsibilities of a leader when

made aware of an incident. The session must conclude with a "safe talk" period where cadets can ask questions directly to the SAPR VA without fear of reprisal.

Performance Measures:

1. Explain bystander intervention and identify opportunities to act in high-risk situations.
2. Describe the key elements of a command climate that effectively prevents sexual assault.
3. Summarize the immediate actions and reporting procedures a leader is required to follow upon receiving a report of sexual assault.
4. Explain the differences between a restricted and unrestricted report.
5. Discuss why prioritizing a victim's well-being is a critical leadership responsibility.

References: DAFI 90-6001, Sexual Assault Prevention and Response; The Uniform Code of Military Justice (UCMJ)

Related Lesson/s: USAF and USSF Core Values (AS100); Professionalism, Standards, and Accountability (AS100); Wingman and Guardian Intervention (AS300); Leadership Authority and Responsibility (AS400); Military Justice (AS400); Military Justice Case Studies (AS400)

Instructor: Detachment or Region SAPR Victim Advocate (VA) or other cadre member with current SAPR training certification.

Additional Information: This objective frames sexual assault not merely as an issue of compliance, but as a critical test of ethical leadership. By requiring cadets to explain and summarize key concepts, this training ensures they have the foundational knowledge necessary to act as a Leader of Character. This understanding is the basis for developing the moral courage, empathy, and procedural knowledge required to effectively combat sexual assault, foster a culture of trust, and ensure the well-being of every Airman and Guardian entrusted to their care.

3. Preparation for Active Duty

3.1 Training Objective: Implement the Cadet mentoring program.

Requirements: Every detachment must have a cadet mentoring program. Detachments have the flexibility to develop and administer the program as they determine. To achieve the required proficiency POC cadets should incorporate lessons from the AS curriculum in mentorship and development of GMC cadets.

Performance Measures:

1. Conduct an initial mentoring session while executing the program's documentation requirements.
2. Use counseling skills to help a mentee navigate a specific challenge.
3. Demonstrate a practical military skill to the mentee.
4. Implement a networking strategy for the mentee.
5. Applies mentoring methods to guide a GMC cadet toward specific goals.

References: DAFMAN 36-2643, *Coaching and Mentoring Program;* AFH 1, *Airman*

Related Lesson/s: Self-Awareness (AS200); Listening (AS200) Mentoring (AS300)

Instructor: Cadre or SCL/ICL cadet (with cadre advisement)

Additional Information: It is recommended that the mentor is not the mentee's primary cadet supervisor.

3.2 Training Objective: Practice leadership and management skills by illustrating the proper use and writing of the Airman Comprehensive Assessment (ACA).

Requirements: To achieve this objective, cadets must be placed in a leadership position within the organizational chart and demonstrate leadership responsibility within the cadet corps. Cadets must conduct the LLAB program, guided by the operations plan and LLAB training objectives. Cadets may identify problems, procedures or activities and apply quality principles to improve the program. To achieve the required proficiency cadets should incorporate lessons from the AS curriculum in effective supervision of GMC cadets. In conjunction with the academic curriculum, ICL cadets will apply lessons learned in their roles within the organization as they provide feedback to subordinates. SCL cadets will continue building on their skills as they attain a higher level of proficiency in providing/receiving feedback and evaluating subordinates.

Performance Measures:

1. Complete a self-assessment using the ACA.
2. Construct written feedback for a subordinate cadet on an ACA.
3. Conduct a mock ACA feedback session with a peer.
4. Use the ACA to guide a mentorship discussion.
5. Illustrate the difference between performance and personal life goals/issues during a feedback session.

References: AFROTCI 36-2011, VOL 3 *Cadet Operations;* AS curriculum; AF Form 724A, *Airman Comprehensive Assessment Worksheet (2Lt – Col);* AF Form 932, *Airman Comprehensive Assessment Worksheet (MSgt – CMSgt);* AF Form 931, *Airman Comprehensive Assessment Worksheet (AB – TSgt).*

Related Lesson/s: Full-Range Leadership (AS200); Listening (AS200); Leadership series (AS200 & AS300); DAF Evaluation Systems (AS300); Establishing Expectations (AS300); Feedback (AS300); Organizational Leadership Theory (AS300); Motivation (AS300); Managing Competing Priorities (AS300)

Instructor: Cadre or SCL/ICL cadet (with cadre advisement)

Additional Information: If a cadet is unable to serve in a leadership position see AFROTCI 36-2011, VOL 3 *Cadet Operations* for OFC waiver authority. Recommend introducing the Airman Comprehensive Assessment (ACA) forms to ICL cadets as early in the academic as possible.

3.3 Training Objective: Illustrate the proper use and writing of Airman Leadership Quality (ALQ) narrative statements.

Requirements: Cadets will gain exposure to writing effective narrative performance statements through the academic curriculum and practical application. The intent is to understand the basic components of an Airman Leadership Quality statement and be able to identify aspects of an effective narrative

statement.

Performance Measures:

1. Construct a narrative statement from a list of accomplishments.
2. Translate informal bullet points into a formal ALQ narrative.
3. Revise a poorly written ALQ statement to meet standards.
4. Use a set of ALQ narratives to conduct a mock ranking board.
5. Classify a cadet's actions from a scenario under the correct ALQ.

References: AFI 36-2406, *Officer and Enlisted Evaluations Systems*; *DAFH 33-337, The Tongue and Quill; AF Form 715, Officer Performance Brief; AF Form 716, Enlisted Performance Brief; AFH 1, The Airman Handbook; AF1206, Nomination for Award.*

Related Lesson/s: DAF Evaluation Systems (AS300); Establishing Expectations (AS300); Feedback (AS300); Performance Statements (AS300)

Instructor: Cadre or SCL/ICL cadet (with cadre advisement)

Additional Information: The OFC has discretion concerning which ACA feedback form is utilized. Cadre will determine effective progression and administer a program that meets the needs of the detachment.

3.4 Training Objective: Practice elements and mechanics of Officer Performance Briefs (OPB), Enlisted Performance Briefs (EPB), awards, and decorations.

Requirements: The intent is to understand the sections, ratings, and mechanics of drafting the performance briefs and the mechanics and purpose of drafting awards and decorations. Cadets must utilize either the OPB, EPB, or a combination of both within their organizational structure. Cadre will determine the extent of which sections of the forms will be completed. By the end of the ICL year, cadets should be familiar and partially proficient with these forms, awards, and citations.

Performance Measures:

1. Prepare a draft narrative statement highlighting a specific achievement for inclusion in an EPB.
2. Fill out the ratee assessment sections of a blank OPB.
3. Draft a complete (full-page) award nomination package (AF Form 1206) for a peer.
4. Write a narrative citation for an Air Force Achievement Medal based on a scenario.
5. Select the appropriate form of recognition for a given scenario.

Style and Author Guide.

Related Lesson/s: DAF Evaluation Systems (AS300); Establishing Expectations (AS300); Performance Statements (AS300)

Instructor: Cadre or SCL/ICL cadet (with cadre advisement)

Additional Information: Cadre will determine effective progression and administer a program that meets the needs of the detachment.

****3.5 Training Objective:** Understand DAF in-processing requirements.

Requirements: The intent is that cadets have a good understanding of DAF in-processing requirements. This includes the ability to accurately complete the numerous required forms, as well as proficiency in navigating the relevant computer systems and databases utilized for personnel management, security, and finance. Furthermore, personnel must possess strong problem-solving skills to effectively identify and resolve common in-processing issues. Effective communication skills are also paramount, enabling clear and concise information delivery as new personnel. Underpinning all these skills is a critical attention to detail, ensuring accuracy and strict compliance with all applicable regulations throughout the in-processing procedure.

Performance Measures:

1. Role-play initial reporting to a new supervisor.
2. Construct a personalized in-processing checklist.
3. Execute a simulated travel voucher submission.
4. Use the myPay system to verify entitlements. (Optional)
5. Complete a set of virtual in-processing forms (DD Form 93, SGLV 8286, etc.).

References: DAFI 36-3026, *Version 1 & 2*; Standard Form 86 (SF86) (e-QIP); DoD 5200.02-R; *Personnel Security Program;* DAFI 36-2906, *Personal Financial Responsibility;* DAFI 36-3012*, Military Entitlements;* Standard Form 1199A (SF 1199A) *(Direct Deposit Sign-Up Form);* myPay*, https://mypay.dfas.mil/#/;* https://www.e-publishing.af.mil/; DoDI 6025.19, *Individual Medical Readiness Program*; https://www.housing.af.mil/; https://www.homes.mil/homes/DispatchServlet/HomesEntry; https://tricare.mil/deers; DAFI 36-2908, *Family Care Plans*; DAFI 36-3009, *Military and Family Readiness Centers*; Military OneSource. "Financial & Legal." https://www.militaryonesource.mil/benefits/financial-counseling/; Military OneSource. "New to the Military MilLife Guides." https://www.militaryonesource.mil/military-basics/new-to-the-military/millife-guid/;

Related Lesson/s: Your First Officer Assignment (AS400), Base Agencies (AS400), Blended Retirement System (AS400)

Instructor: Cadre or SCL with cadre guidance.

Additional Information: Ensure cadets are aware of in-processing tasks and procedures such as identification/verification, personnel records management, security clearance processing, financial/pay enrollment, medical/dental coordination, housing/lodging, base access/security, and dependent in-

processing that is DAF central as well as base-specific.

DISCIPLINED PROFESSIONAL

Program Learning Outcome: The graduate will be able to demonstrate DAF standards and commitment to excellence in personal and professional conduct.

1. Department of the Air Force and AFROTC Grade Structure and Insignia

****1.1 Training Objective:** Identify rank structure by insignia and grade for AFROTC; DAF enlisted, warrant officer, and officer; and joint services officer corp.

Requirements: Cadets should be able to identify all cadet, enlisted, and officer ranks by both insignia and name.

Performance Measures:

1. Recalls enlisted, warrant-officer, and officer ranks by title and grade.
2. Identifies insignia for each rank across all services.
3. Describes how rank establishes authority and responsibility.
4. Explains the relationship between grade and chain of command.
5. Applies proper rank recognition during all PMT events/activities.

References: DAFI 36-2903, *Dress and Personal Appearance of United States Air Force and United States Space Force Personnel;* AFROTC Supp 36- 2903, *Dress and Personal Appearance of United States Air Force and United States Space Force Personnel;* AFH 1, *The Airman Handbook;* DAFH 33-337, *The Tongue and Quill*

Related Lesson/s: The Enlisted Force (AS300)

Instructor: ICL with cadre guidance or SCL

Additional Information: Instructors may want to use the information for evaluation purposes in LLAB and for quizzing cadets during inspections.

2. Department of the Air Force and AFROTC Chain of Command

****2.1 Training Objective:** List and explain the chain of command from POTUS through the DAF to the individual cadet.

Requirements: Cadets will recall from memory the current chain of command from the President of the United States to the individual cadet. While it is important that cadets know both, it is more important to understand the concept and application of the chain of command as it pertains to the Dept. of Air Force. Cadets should be able to recite both positions and names.

Performance Measures:

1. Recalls current positions and names in the chain of command.
2. Identifies where the detachment fits within the DAF hierarchy.
3. Describes how lawful orders move through the chain of command.
4. Use the chain of command to delegate tasks and manage information flow, both up and down.
5. Applies proper reporting procedures during official events.

References: https://www.aetc.af.mil/; https://www.spaceforce.mil/; https://www.airuniversity.af.edu/

Related Lesson/s: Civilian Control of the Military (AS400); DAF (AS100); DOD (AS400)

Instructor: SCL with cadre participation

Additional Information: Instructors may want to use this objective for evaluation purposes in LLAB and for quizzing the cadets during inspections. Reference photos in detachment (If available).

3. Department of the Air Force Customs and Courtesies

3.1 Training Objective: Practice DAF customs and courtesies in respect to peers, superiors, and subordinates through proper saluting, reporting procedures, and informal and formal activities.

Requirements: Cadets must know and give examples of proper DAF customs and courtesies while explaining their importance. Additionally, cadets must demonstrate a proper salute, explain when to salute/receive a salute, and provide characteristics of an applicable superior who should be saluted. Furthermore, cadets must demonstrate the ability of properly reporting in/reporting out while explaining the steps involved. Lastly, cadets must properly apply courtesies during informal and formal ceremonies and explain the most common mistakes executed by Airmen.

Performance Measures:

1. Execute the full reporting procedure when summoned by a cadre member.
2. Render a proper salute and greeting when approaching an officer outdoors.
3. Apply the correct protocol when the National Anthem is played.
4. Use the rules of a formal military dinner (Dining-In/Out).
5. Demonstrate proper verbal address in day-to-day interactions.

References: AFI 1-1, Air Force Standards; DAFI 36-2903, *Dress and Personal Appearance of United States Air Force and United States Space Force Personnel*; AFI 34-1201, *Protocol*; AFH 1, *The Airman Handbook; DAFPAM 34-1203, Drill and Ceremonies Manual*

Related Lesson/s: N/A

Instructor: Any POC Cadet

Additional Information: None.

3.2 Training Objective: Describe proper procedures for display of the flag; outdoor and indoor ceremonies; and folding the flag, retreat, and reveille.

Requirements: Cadets must know how to properly display the American Flag, the proper order of display for any combination of flags, and how to properly fold the American flag. Additionally, cadets must participate as a formation member and understand the actions/sequence for retreat and reveille. Cadets must demonstrate the ability of executing retreat/reveille and the necessary commands as a commander (e.g., detail, flight, squadron, etc.) IOT attain a higher level of proficiency needed to serve

as flag detail commanders. Lastly, cadets must know the proper customs and courtesies to implement during outdoor and indoor ceremonies while providing examples of each type ceremony.

Performance Measures:

1. Recalls the correct number of folds required when folding the US flag.
2. Lead a three-cadet flag detail through a complete reveille or retreat ceremony.
3. Participate in a two-person team to correctly fold a U.S. flag.
4. Construct a proper indoor flag display with multiple flags.
5. Execute the proper individual actions during a retreat ceremony.

References: AFI 1-1, *Air Force Standards*; DAFPAM 34-1203, *Drill and Ceremonies Manual*; AFI 34-1201, *Protocol*; AFH 1, *The Airman Handbook*

Related Lesson/s: Full Range Leadership (AS200)

Instructor: Any POC Cadet

Additional Information: Cadets in charge of the flag detail should have a higher level of training in executing duties (e.g., Honor Guard, student organizations).

4. Military Ceremonies and Protocol

****4.1 Training Objective:** Discuss official ceremonies (award, change of command, retirement, commissioning, and promotion), protocol, and procedures to include dining-in and dining-out activities.

Requirements: Cadets must know the procedures and applicable protocols during award, change of command, retirement, commissioning, and promotion ceremonies, as well as, Dining-In and Dining-Out events.

Performance Measures:

1. Write the narrator's script for a mock Change of Command ceremony.
2. Construct a formal invitation for a commissioning ceremony.
3. Execute the proper procedure for proposing a toast at a Dining-In.
4. Build a Sequence of Events (SOE) document for a retirement ceremony.
5. Role-play the presentation of a medal during an awards ceremony.

References: AFI 1-1, *Air Force Standards*; DAFPAM 34-1203, *Drill and Ceremonies Manual*; AFI 34-1201, *Protocol*; AFH 1, *The Airman Handbook*

Related Lesson/s: N/A

Instructor: SCL with cadre participation

Additional Information: When mission requirements allow, award ceremonies, change of command,

other official ceremonies, and Dining-In/Dining-Out should be held in order to demonstrate the application of this knowledge. Recommend cadets experience at least one of each during their AFROTC tenure.

5. Department of the Air Force Dress and Appearance Standards

5.1 Training Objective: Demonstrate proper DAF grooming, dress, and appearance standards.

Requirements: Cadets must be able to demonstrate the ability of properly displaying a professional image and wearing DAF uniforms executed within AFROTC and DAF grooming, dress, and appearance standards while explaining the most common grooming problems and uniform mistakes of Airmen.

Performance Measures:

1. Wear the uniform of the day in complete compliance with standards.
2. Pass a formal Open Ranks Inspection.
3. Assemble a complete Service Dress uniform.
4. Prepare and maintain combat boots for a field exercise.
5. Identify uniform errors on a mannequin or peer.

References: AFI 1-1, *Air Force Standards*; DAFI 36-2903, *Dress and Personal Appearance of United States Air Force and United States Space Force Personnel*; AFROTC Supp 36-2903, *Dress and Personal Appearance of United States Air Force and United States Space Force Personnel*

Related Lesson/s: Professionalism, Standards, and Accountability (AS100)

Instructor: Any POC Cadet

Additional Information: None.

6. Drill Positions and Movements

6.1 Training Objective: Demonstrate drill fundamentals and drill of the flight and squadron at the basic, intermediate, and advanced levels through marching, open ranks inspection, and road guard procedures.

Requirements: Cadets must be able to apply drill fundamentals, display proper command voice, and drill commands. Cadets must recognize basic individual drill commands, voice characteristics of each command, and their corresponding movements. Additionally, Cadets must be able to command a flight in all situations they are expected to encounter. Furthermore, Cadets must be able to perform basic drill positions individually or within a flight while stationary recognizing all drill and call commands that include attention, parade rest, right face, left face, about face, present arms, and order arms. Moreover, when demonstrating proper drill of the flight Cadets must be able to execute the following:
Basic Drill of the Flight – Halting, cadence principles, line VS inverted line, column VS inverted column, formation, and cover
Intermediate Drill of the Flight – Column movements, flanking movements, right/left Step, March to

the Rear, double time, quick time, route step, and transfer of command
Advanced Drill of the Flight – Column of files and change step (Optional)
Cadets must be able to perform the duties of the guidon bearer, as well as march and command as a detail. While in squadron formation, Cadets must understand the differences between flight and squadron marching. As far as open ranks inspections (ORI) are concerned, Cadets must be able to perform an ORI. With exception, Cadets may command an ORI and must include knowledge of the following: ORI procedures, individuals to leave ranks, open ranks, close ranks, count off, and dress right. Lastly, Cadets must guide a flight across a two-lane road given multiple lane configurations with assistance as necessary IOT meet the required level of proficiency for detachment and field training movements while also demonstrating the ability to train proper road guard procedures to GMC Cadets.

Performance Measures: (In Addition to the Above)

1. Execute a 30-command drill sequence without error.
2. Lead a flight through a standard drill card.
3. Perform the duties of an element leader during an Open Ranks Inspection.
4. Execute the full sequence to post, use, and retrieve road guards.
5. Conduct an Open Ranks Inspection as the flight commander. (Optional)

References: DAFPAM 34-1203, *Drill and Ceremonies*; AFH 1, *The Airman Handbook*

Related Lesson/s: Full Range Leadership (AS200); Critical Thinking II (AS300)

Instructor: Any POC Cadet

Additional Information: Individual drill instruction is intended to be conducted while individuals or flights are stationary rather than while marching. Basic drill of the flight is intended to be conducted marching back and forth along a straight path. Intermediate and advanced drill of the flight should be scaled-up IOT meet the movement needs of detachment activities and field training. Cadets should practice squadron marching fundamentals from the squadron commander position. Additionally, Cadets should be given the opportunity to command an ORI, however the minimum requirement is to participate as a member of the flight. Lastly, road guards are required to ensure the safety of cadets during transit around detachments and during field training. Road guards are required for all student formations greater than eight students. For flights seven or smaller, the Flt/CC will act as a road guard for their flight. Details of two to four cadets do not require road guards.

EFFECTIVE COMMUNICATOR

Program Learning Outcome: The graduate will be able to express ideas with a clear and tailored purpose to enhance knowledge, foster understanding, and garner cooperation.

1. Effective Communication for Impact

1.1 Training Objective: Demonstrate clear and concise communication throughout all ROTC training and education events IOT accomplish a given mission.

Requirements: Cadets will demonstrate the ability to analyze audience characteristics (needs, knowledge, preferences) and adapt their communication style and messaging to effectively engage diverse groups in various scenarios (e.g., presentations, meetings, written correspondence).

Performance Measures:

1. Brief a plan of action for a Graded Leadership Position (GLP) and/or during a PMT event/activity.
2. Issue a verbal command that results in a correct drill movement.
3. Use proper radio/telephone procedures to transmit information.
4. Write a professional email to coordinate a task.
5. Applies clear, concise, and properly formatted communication during all PMT events/activities.

References: AFI 1-1, *Air Force Standards*; AFMAN 33-326, *Preparing Official Communications*; AFH 33-337, *The Tongue and Quill;* AFH 1*, Airman*

Related Lesson/s: Writing Overview (AS100), Speaking Overview (AS100), Team Building (AS200), Motivation (AS300), Inspiring Action (AS300)

Instructor: Any POC Cadet

Additional Information: To ensure cadets can analyze diverse audience characteristics (needs, knowledge, preferences, demographics, values) using techniques like surveys and observation, and adapt their communication style (language, delivery, non-verbal cues) and messaging (content, framing, visuals) to effectively engage diverse groups (considering rank, culture, learning styles) in scenarios like presentations, meetings, and written correspondence, the training will explicitly define these concepts and provide detailed frameworks.

****1.2 Training Objective:** Describe the appropriate usage of the official memorandum and AF E-Publishing.

Requirements: The intent is that cadets are familiar with an indorsement format of the official memorandum and when it is appropriate to utilize the document. It also should highlight the routing procedures and proper formatting to attain the understand level of proficiency. Additionally, cadets should be familiar with the usage of DAF publications and forms along with where to find them. Cadets should be able to identify the series of instructions, proper waiver authorities, and types of forms available to attain the understand level of proficiency.

Performance Measures:

1. Construct an Official Memorandum to request a resource and/or document an event.
2. Locate the current version of a specific regulation using AF E-Publishing.
3. Revise an improperly formatted memorandum to meet official standards.
4. Use a publication found on AF E-Publishing to justify a decision in a memorandum.
5. Solve an administrative problem by determining if a form is obsolete. (Optional)

References: DAFH 33-337, *The Tongue and Quill; DAFI 33-360, Publications and Forms Management*

Related Lesson/s: DAF Writing (AS100)

Instructor: Cadre or SCL/ICL cadet (with cadre advisement)

Additional Information: Ensure cadet leadership is aware of and coordinating approval of requests at the appropriate level (typically the cadre). An appropriate example is the OFC's approval of the OPLAN or OPORDs. Utilize Air Force e-publishing website along with DAFI 33-360: https://www.e-publishing.af.mil/

2. Communicating for Understanding and Cooperation

2.1 Training Objective: Demonstrate the ability to actively listen to understand diverse perspectives, articulate their own ideas clearly and respectfully, and facilitate collaborative discussions to achieve shared goals.

Requirements: Cadets will demonstrate active listening skills by accurately summarizing the perspectives of others during group discussions. They will also articulate their ideas clearly and respectfully, as assessed by peer feedback on their communication style. Finally, they will successfully facilitate a simulated collaborative problem-solving exercise, achieving a mutually agreeable solution within a given timeframe.

Performance Measures:

1. Paraphrase a team member's suggestion before offering a different idea.
2. Mediate a disagreement between two peers during a planning session.
3. Solicit input from a quiet or reserved team member.
4. Articulate a dissenting opinion to a leader without undermining their authority.
5. Ask targeted, clarifying questions to prevent misunderstanding.

References: AFI 1-1, *Air Force Standards*; AFMAN 33-326, *Preparing Official Communications*; AFH 33-337, *The Tongue and Quill;* AFH 1*, Airman*

Related Lesson/s: Writing Overview (AS100), Speaking Overview (AS100), Team Building (AS200), Motivation (AS300), Inspiring Action (AS300)

Instructor: Any POC Cadet

Additional Information: To ensure cadets demonstrate active listening by accurately summarizing others' perspectives in group discussions (paying attention, providing feedback, deferring judgment, and

employing paraphrasing techniques to capture main points), their articulation of ideas must be clear (using precise language and logical structure) and respectful (using appropriate tone and acknowledging diverse perspectives), assessed through peer feedback. They will also successfully facilitate a simulated collaborative problem-solving exercise within a given timeframe, evaluated on establishing clear goals, encouraging participation, and managing conflict, to achieve a mutually agreeable solution that addresses the needs of all parties and requires reflection on lessons learned and improvement goals.

3. Purposeful and Strategic Communication Skills

3.1 Training Objective: Demonstrate the ability to apply purposeful and strategic communication skills to effectively persuade stakeholders, negotiate favorable outcomes, and build consensus on critical issues.

Requirements: Cadets will be familiar with purposeful and deliberate communication by analyzing case studies and by participating in performance-based exercises like persuasive briefings, negotiation simulations, and consensus-building facilitation. Additionally, they will also be observed in leadership roles, mentoring junior cadets, and will complete a communication plan to address a real-world ROTC or Air Force challenge.

Performance Measures:

1. Negotiate a solution to a resource conflict with a peer.
2. Justify an unpopular decision to a team to gain their buy-in.
3. Mediate a professional disagreement between two subordinates.
4. Identifies logical and ethical techniques for persuasion. (Optional)
5. Explains how communication supports leadership influence. (Optional)

References: AFI 1-1, *Air Force Standards*; AFMAN 33-326, *Preparing Official Communications*; AFH 33-337, *The Tongue and Quill;* AFH 1*, Airman*

Related Lesson/s: Writing Overview (AS100), Speaking Overview (AS100), Motivation (AS300), Inspiring Action (AS300), Team Building (AS200), Conflict Management (AS300)

Instructor: Any POC Cadet

Additional Information: Reflection papers and self-assessments will track progress, ensuring cadets develop the ability to effectively persuade stakeholders, negotiate favorable outcomes, and build consensus, all crucial for future Air Force leadership. Any performance-based exercise associated with this training objective (TBEX, SBE, GLP) should be evaluated on clarity, persuasiveness, and collaborative problem-solving skills.

3.2 Training Objective: Demonstrate the ability to communicate effectively to inspire teams, align them with organizational goals, and effectively manage change.

Requirements: Cadets will demonstrate strategic communication for inspiring teams, aligning them with goals and managing change through performance-based exercises. Additional practical exercises like delivering briefings, creating operational plans, and facilitating team alignment meetings.

Performance Measures:

1. Define key elements of effective communication. (Optional)
2. Deliver a short briefing that connects a new, challenging task to the squadron's mission.
3. Demonstrate change management techniques by adapting and communicating a new course of action.
4. Draft a written directive for a flight activity.
5. Explain how different communication styles can impact team dynamics and goal attainment. (Optional)

References: AFI 1-1, *Air Force Standards*; AFMAN 33-326, *Preparing Official Communications*; AFH 33-337, *The Tongue and Quill;* AFH 1*, Airman*

Related Lesson/s: Writing Overview (AS100), Speaking Overview (AS100), Motivation (AS300), Inspiring Action (AS300), Team Building (AS200), Change Management (AS300), Feedback (AS300)

Instructor: Any POC Cadet

Additional Information: They will be evaluated on their ability to clearly articulate a mission statement, prudently address concerns, and build consensus. Cadets will also mentor junior cadets on communication skills, lead small group exercises, gain leadership experience through their assigned positions, and document their progress through reflection papers and 360-degree feedback.

3.3 Training Objective: Demonstrate the ability to define clear and measurable communication objectives aligned with broader organizational goals.

Requirements: Cadets will demonstrate the ability to define clear and measurable communication objectives aligned with broader organizational goals through coursework, practical exercises using structured templates and realistic scenarios, peer critiques, and partial communication plan development.

Performance Measures:

1. Develop a set of clear and measurable communication objectives that directly support a goal.
2. Formulate distinct communication objectives designed to achieve compliance and maintain morale.
3. List the parts of a SMART goal (Specific/Measurable/Achievable/Relevant/Time-Bound) (Optional)
4. Develop a SMART communication objective to support an organizational goal.
5. Assess the potential impact of different communication goals on organizational performance. (Optional)

References: AFI 1-1, *Air Force Standards*; AFMAN 33-326, *Preparing Official Communications*; AFH 33-337, *The Tongue and Quill;* AFH 1*, Airman*

Related Lesson/s: Writing Overview (AS100), Speaking Overview (AS100), Motivation (AS300), Inspiring Action (AS300), Team Building (AS200)

Instructor: Any POC Cadet

Additional Information: To ensure cadets demonstrate the ability to define clear and measurable communication objectives aligned with broader organizational goals, the training will incorporate specific examples of DAF and ROTC Detachment goals with guidance on aligning objectives with those goals.

3.4 Training Objective: Demonstrate the ability to select and utilize appropriate communication channels (e.g., email, social media, presentations, reports) to maximize reach and impact.

Requirements: Cadets will demonstrate their ability to appropriately select and utilize communication channels to maximize reach and impact throughout their respective DETs. Cadets will also develop comprehensive communication plans, present their channel selection strategies, and analyze channel performance data.

Performance Measures:

1. Select and utilize the most appropriate communication channel to disseminate information.
2. Implement a dynamic communication plan.
3. List and describe at least three different communication channels. (Optional)
4. Explain how audience characteristics influence the selection of communication channels (Optional)
5. Compare and contrast the impact of different communication channel strategies. (Optional)

References: AFI 1-1, *Air Force Standards*; AFMAN 33-326, *Preparing Official Communications*; AFH 33-337, *The Tongue and Quill;* AFH 1*, Airman,* AFI 10-701*, Operations Security;* AFI 35-101, *Public Affairs Operations*; AFMAN 35-101, *Public Affairs Procedures*

Related Lesson/s: Writing Overview (AS100), Speaking Overview (AS100), Team Building (AS200), Motivation (AS300), Inspiring Action (AS300), Public Affairs and the Media (AS300), Social Media and Disinformation (AS300)

Instructor: Any POC Cadet

Additional Information: To ensure cadets demonstrate their ability to appropriately (ethically, securely, accessibly, and with cultural sensitivity) select and utilize communication channels to maximize targeted reach and impact (measured by engagement, conversion, and knowledge gain) throughout their respective ROTC detachments they may develop comprehensive communication plans outlining channel selection strategies, content calendars, and risk mitigation plans, then present and justify their choices. They will also analyze channel performance data, identifying key trends and making data-driven recommendations for optimization, all while adhering to established ethical, security, and branding standards.

WARFIGHTER

Program Learning Outcome: The graduate will be able to explain the linkages between DAF doctrine and key concepts of military theory, strategy, and the nature of war.

1. Understand how the Air Force Employs Warfighting Assets

****1.1 Training Objective:** Summarize the DAF mission, purpose, core competencies, and warfighting assets.

Requirements: Review and recite Air Force mission, purpose, and core competencies. Identify and discuss assets across all Air Force domains by identifying some assets in each domain by name, primary mission, and key characteristics.

Performance Measures:

1. Recall the DAF mission statement, core functions, and primary warfighting domains.
2. Identify the major commands and their key operational roles.
3. Brief how a current world event impacts a DAF core competency.
4. Justify a local ROTC activity by linking it to a DAF core competency.
5. Match specific warfighting assets to the core competencies they primarily support.

References: Air University's LeMay Center for Doctrine Development and Education (https://www.doctrine.af.mil/Core-Doctrine/Vol-1-Basic-Doctrine/); AF.mil - Factsheets; Air Force Magazine - Air Force Almanac

Related Lesson/s: Capabilities and Force Packaging (AS400); Department of the Air Force (AS100); The Total Force (AS300); Space Operations (AS400); Cyberspace (AS400); Nuclear Operations (AS400)

Instructor: ICL with cadre guidance or SCL

Additional Information: The intent is for cadets to gain a base level knowledge of the capabilities the Air Force delivers.

1.2 Training Objective: Apply fitness principles to lead peers and enhance readiness of the human weapon system.

Requirements: This training requires all participating cadets to be in the proper Physical Training Gear (PTG). The execution area must be a designated, safe location, clear of hazards, and equipped with necessary items such as pull-up bars, cones, stopwatches, etc. Instructors must have immediate access to official Air Force Physical Fitness Assessment scoring charts, standardized exercise instructions, and pre-briefed lesson plans for any cadet-led portions of the training. Adequate hydration (water coolers or personal canteens) and access to designated medical support are mandatory for all sessions.

Performance Measures:

1. Solve a tactical scenario problem where the outcome is dependent on the calculated physical abilities (e.g., speed, endurance) of the team members.

2. Demonstrate proper form and execute all components of the Air Force PFA to standard.
3. Implement a documented personal fitness plan over a 4-week period.
4. Successfully instruct a flight-sized element through a structured physical training session.
5. Modify a pre-planned workout on the spot to account for an unexpected change.

References: DAFMAN 36-2905, Department of the Air Force Physical Fitness Program; The Warfighter's Fitness Playbook

Related Lesson/s: Full Range Leadership (AS200); Followership (AS200)

Instructor: ICL with cadre guidance or SCL

Additional Information: This objective moves beyond conceptual understanding to focus on practical application. It is designed to instill the critical understanding that physical fitness is a foundational component of the human weapon system and a non-negotiable aspect of mission readiness. By requiring cadets to apply their knowledge in tangible ways—solving problems, leading peers, implementing plans, and adapting to new situations—this training directly supports the development of the critical thinking and warrior-minded leadership essential for winning our nation's wars.

1.3 Training Objective: Apply wargaming principles to analyze and solve a tactical problem.

Requirements: This training requires a dedicated classroom or briefing room with sufficient table space to accommodate the wargame for all participants. Cadets must be provided with pre-prepared scenario packets at least 24 hours in advance, detailing the operational environment, strategic context, intelligence reports, force laydowns, and clear objectives for all player factions. A specific wargaming system (e.g., board game, matrix game, or digital simulation) will be designated for the event. A "White Cell," composed of cadre or senior cadets, must be established to adjudicate game turns, introduce dynamic "fog of war" events, and ensure the scenario progresses according to the training objectives. All participants will be assigned specific roles (e.g., Commander, Ops, Intel) and must have access to relevant reference materials, such as excerpts from key joint and DAF doctrine.

Performance Measures:
1. Develop a viable course of action (COA) to achieve the stated mission objectives.
2. Construct a clear and concise operations order (OPORD).
3. Execute the developed COA while justifying their decisions.
4. Modify the initial plan in response to adversary actions or White Cell injects.
5. Articulate key lessons learned during a post-game debrief.

References: AFDP 3-0, Operations; AFDP 5-0, Planning; JP 3-0, Joint Campaigns and Operations; JP 5-0, Joint Planning; AFDP 1-1, Mission Command; AFDP 3-99, DAF Role in Joint All-Domain Operations (JADO)

Related Lesson/s: Principles of Joint Operations and Tenants of Airpower (AS100); What the DAF Brings to the Fight (AS100); Problem Solving (AS200); Full Range Leadership (AS200); Critical Thinking 1 & 2 (AS200 & AS300); The Total Force (AS300); Managing Competing Priorities (AS300); Joint Operations (AS400); ACE (AS400), Military Planning Fundamentals (AS400); Capabilities and Force Packaging (AS400)

Instructor: SCL with cadre guidance or Cadre

Additional Information: This objective is designed to move cadets beyond theoretical knowledge of warfighting and into a dynamic environment where they must apply it. By engaging in a competitive wargame, cadets are forced to make decisions under pressure, manage limited resources, anticipate enemy actions, and adapt to unforeseen circumstances. This hands-on application develops the critical thinking, tactical acumen, and decisiveness required of warrior-minded leaders. It provides a direct, practical link between doctrinal concepts and their role in successfully employing warfighting assets, preparing them to lead in complex operational environments.

2. Expeditionary Skills

****2.1 Training Objective:** Differentiate the types of operational orders and their uses.

Requirements: Cadets must be able to differentiate different types of orders (warning, operation, and fragmentary) and describe the purpose of each in the operational context.

Performance Measures:

1. Recall the definition and purpose of WARNORD, OPORD, and FRAGO.
2. Identify key components and the five paragraphs of operational orders.
3. Describe how operational orders guide mission execution.
4. Write a FRAGO that amends a specific paragraph of a base OPORD.
5. Use an OPORD to brief a team on their specific tasks.

References: AFTTP 3-4, Airman's Manual; AFDP 5-0, Planning; AFDP 3-0, Operations; AFDP 1-1, Mission Command

Related Lesson/s: Military Planning Fundamentals (AS400)

Instructor: SCL with cadre guidance

Additional Information: Cadets are most familiar with the Operation Order (OPORD) which details the daily/weekly AFROTC schedule. Changes to an OPORD are often communicated by word of mouth, text, social media/email, in the operational construct, these changes could be implemented using a fragmentary order (FRAGO). Warning orders are the least familiar to the AFROTC construct; however, real-world application can be demonstrated by looking at current events and understanding that when threats emerge or humanitarian crises arise, warning orders (WARNORDs) signal to specific units of forthcoming taskings.

****2.2 Training Objective:** Discuss the considerations for operating in secured and/or hostile environments.

Requirements: GMC cadets should be able to recall and discuss the different procedures for operating in secured or hostile environments based on the following topics: entry control points, badging/identification and entry authority, rules of engagement (ROEs), antiterrorism and force protection conditions (FPCONs), and operational security.

Performance Measures:

1. Recall the definitions of force protection, operational security, and rules of engagement (ROE).
2. Describe how force protection conditions (FPCON) reduce mission risk.
3. Implement heightened security procedures in response to an increased FPCON level.
4. Use proper communication security (COMSEC) procedures during a radio transmission.
5. Review a set of mock social media posts and identify operations security (OPSEC) violations.

References: AFTTP 3-4, *Airman's Manual* Lesson Plan

Related Lesson/s: Operations Security (OPSEC) (AS300)

Instructor: SCL with cadre guidance

Additional Information: This lesson is not intended to be a PowerPoint briefing. Ideally, the instructor(s) use creative methods to reinforce the knowledge from the Airman's Manual in an expeditionary-like environment as the cadets will experience at Field Training. Ensure that cadets understand protecting the DAF's critical assets to include resources, people, and infrastructure is vital to effective mission accomplishment. Secured perimeters provide standoff protection from threats and only authorized individuals are allowed into areas based on authority granted to them considering several critical factors as described in the Airman's Manual. During elevated threat-levels and FPCONs, additional measures may be adopted. Understanding asset protection and OPSEC considerations limit exposure by Airman to threats. When deployed or operating in hostile environments, ROEs consider additional operational limits or instructions for use of force in hostile environments.

2.3 Training Objective: Utilize basic TTPs to respond to attacks and threats that include UXO/IED, sUAS, base defense procedures, and active shooter response.

Requirements: GMC cadets should be able to demonstrate responding to attacks or threats using the following: sign/countersign, the phonetic alphabet, and the SALUTE (size, activity, location, unit, time, and equipment) report. Additionally, cadets should be able to demonstrate responding to unexploded ordinance (UXOs) and improvised explosive devices (IEDs) by identifying IED characteristics, recalling the 5-Cs (confirm, clear, cordon, check, control), and reporting identified UXOs/IEDs. Furthermore, cadets should be able to demonstrate an understanding of basic base defense procedures, including security protocols, reporting suspicious activity, and responding to emergencies. Lastly, cadets should be able to demonstrate responding to insider threat/active shooter by identifying categories of insider threats, defining an active shooter, and understanding the necessary preparations required for an appropriate response.

Performance Measures:

1. Identify characteristics of common threats such as UXO, IED and sUAS activity.
2. Execute the 5 Cs upon discovering a simulated IED/UXO.
3. Transmit a SALUTE report upon spotting a simulated enemy sUAS.
4. Implement the "Run, Hide, Fight" principles during an active shooter drill.
5. Apply challenge-and-pass procedures at an Entry Control Point (ECP).

References: AFTTP 3-4, *Airman's Manual*

Related Lesson/s: N/A

Instructor: Any POC Cadet with cadre guidance

Additional Information: The requirements listed above are infrequent skills that will be required during operational and exercise evaluations on active duty. This lesson is not intended to be a PowerPoint briefing. Ideally, the instructor(s) use creative methods to reinforce the knowledge from the Airman's Manual in an expeditionary-like environment as the cadets will experience at Field Training. Active shooter training may be supplemented by local law enforcement agencies. At a minimum, cadets should walk-through and discuss responding to an active shooter scenario.

2.4 Training Objective: Apply the AEW 2.0 construct to build, prepare, and certify the Cadet Wing into a cohesive, mission-ready Unit of Action (UoA).

Requirements: The academic year will be treated as an 8-month readiness cycle, mirroring the Air Force Force Generation (AFFORGEN) model (Prepare, Certify). The Cadet Wing will be organized into a notional AEW 2.0 construct to plan and execute this cycle.

Performance Measures:

1. Explain how the AEW 2.0 construct and AFFORGEN model are doctrinally linked.
2. Apply resource management principles to prepare, deploy, and account for all personnel and equipment.
3. Apply lessons learned from AARs to implement measurable improvements.
4. Apply leadership principles throughout the AFFORGEN cycle to integrate all cadets into a single expeditionary team.
5. Apply expeditionary skills and ACE principles to successfully execute all primary objectives of the capstone certification mission.

References: AFTTP 3-4, *Airman's Manual*; AFDN 1-21, Agile Combat Employment; AFDP 3-0, Operations; AFDP 5-0, Planning; JP 3-0, Joint Campaigns and Operations; JP 5-0, Joint Planning; AFDP 1-1, Mission Command; AFDP 3-99, DAF Role in Joint All-Domain Operations (JADO)

Related Lesson/s: Department of the Air Force (AS100); What the DAF Brings to the Fight (AS100); Full Range Leadership (AS200); Team Building (AS200); Problem Solving (AS200); Critical Thinking 1 & 2 (AS200 & 300); Creative Thinking (AS300); Inspiring Action (AS300); Establishing Expectations (AS300); Organizational Climate (AS300); Managing Competing Priorities (AS300); Conflict Management (AS300); Change Management (AS300); Organizational Leadership Theory (AS300); Military Planning Fundamentals (AS400); Unified Combatant Command (AS400); Joint Operations (AS400); How the DAF Deploys (AS400); Capabilities and Force Packaging (AS400)

Instructor: DET/CC and cadre, serving as the senior leadership, mentors, and the final certifying authority for the wing's "readiness."

Additional Information: This model transforms the academic year into a direct, hands-on simulation of the AFFORGEN model and the AEW 2.0 construct. It provides cadets with unparalleled experience in building, preparing, and deploying a mission-ready team, giving them a practical understanding of the very concepts that will define their careers as expeditionary leaders.

STRATEGIC-MINDED OFFICER

Program Learning Outcome: The graduate will be able to describe US values, interests, government structures and processes, and global challenges related to national security decision- making.

1. US National Security Essentials

****1.1 Training Objective:** Explain how U.S. values, government, and global issues affect national security decisions.

Requirements: Cadets should be able to identify and describe core American values and characteristics such as representative government, separation of powers, freedom, equality, justice, free enterprise, religious freedom, and the rule of law. They must be able to recognize various US national interests, including economic prosperity, territorial integrity, global stability, and the protection of citizens abroad. They will need to understand the roles and responsibilities of the different branches of government (Executive, Legislative, Judicial) in national security decision-making, as well as the processes by which national security policy is implemented. Lastly, cadets should be familiar with significant global challenges that impact US national security such as terrorism/extremism, cyber warfare, strategic competition, pandemics, economic instability, nuclear proliferation, and human rights violations.

Performance Measures:

1. Produce two distinct COAs for a scenario based on the influence of US values, current events, and governmental processes. (Optional)
2. Construct a one page point-paper arguing for/against a specific national security decision.
3. Analyze a breaking global event and recommend an initial US posture. (Optional)
4. Identifies major US national interests that influence defense policy. (Optional)
5. Describes the roles US branches of government in national security processes. (Optional)

References: AFDP 1, *Air Force Basic Doctrine,* US National Security Strategy, US National Defense Strategy, US National Military Strategy, US Constitution

Related Lesson/s: What is War (AS100), Civilian Control of the Military (AS400), National Security (AS400), The Department of Defense (AS400), Concepts of International Relations (AS400), Global Hot Spots (AS400), Strategic Competition (China and Russia) (AS400), US Constitution (AS400)

Instructor: Cadre or SCL with cadre participation

Additional Information: The requirements listed above are intended to be at the most basic level as DAF Lieutenants will not be expected to exercise these abilities or knowledge on a frequent basis upon entering the operational DAF. Therefore, cadre must ensure the appropriate level of proficiency is acquired based on the related lessons.

Instructor's Note: ***The events/activities listed in the AFROTCI 36-2011, Volume I are not all-inclusive or designed to be conducted as the sole avenue for determining proficiency of training objectives. They are provided as executable examples that can be scaled to meet to needs of all detachments based on faculty/staff size, cadet population, and local resources. To ensure a proper assessment, DET/CCs and Cadre are encouraged to use their professional experience and training to provide quality, holistic training that accurately captures the cadet's performance in the spirit and intent of each training objective as it relates to Program Learning Outcomes.***

ATTACHMENT 1 – POC-IN-CHARGE EVALUATION FORM

AFROTC POC IN CHARGE EVALUATION

SECTION I: ASSESSMENT DATA		DATE:
CADET NAME: (Last, First, M.)	CLASS:	PMT EVENT:

SECTION II: GRADED AREAS

PLANNING: Considers Cadet Wing (CW) deadlines, develops thorough documentation (e.g., Operations Orders, trainer information packages, Risk Management plan), receives approved plan in advance of Practical Military Training (PMT) event

Ineffective – 1	Satisfactory – 3	Highly Effective – 5
- Missed two or more deadlines - Failed to receive approved plan prior to PMT event - POC did not receive info packages required for training	- Missed one or less deadlines - Developed plan and resolved comments prior to approval - POC understood training responsibilities for PMT event	- No deadlines missed - Developed a robust plan with clarity and attention to detail as well as made provisions for deviations - Expertly prepared POC in advance of PMT event

NOTES:

COMMUNICATION: Provides clear written/verbal communication with Cadet Wing and/or Cadre, facilitates Cadet Wing interaction, informs trainers of PMT roles/responsibilities

Ineffective – 1	Satisfactory – 3	Highly Effective – 5
- Failed to communicate with POC and/or Cadre - Lacked GMC and POC interaction - Minimal delegation and task management	- Adequately communicated with POC and/or Cadre - Fostered Cadet Wing interaction - Most PMT requirements delegated and level-loaded amongst POC cadets	- All written/verbal communication clear and concise - Established 360-degree communication - Appropriately delegated and resource managed all phases

NOTES:

DECISION-MAKING: Makes clear and timely decisions, considers lessons learned and continuity, applies calculated risk into processes.

Ineffective – 1	Satisfactory – 2	Highly Effective – 3
- Unable to make decisions - Disregarded instructions, continuity, and other source documents to substantiate requirements - Did not apply Risk Management process	- Made decisions when necessary - Applied available instructions, continuity, and other source documents to substantiate requirements - Applied Risk Management process	- Delivered effective and just-in-time decision-making logic - Utilized all available information streams in furtherance of followership/leadership principles - Used full Risk Management process with mitigation approaches for all objectives and weather considerations

NOTES:

LEADERSHIP: Demonstrates command presence, motivates and directs Cadet Wing to carry out PMT mission/objectives, develops and cares for GMC training

Ineffective – 1	Satisfactory – 3	Highly Effective – 5
- Lacked confidence and command presence - Failed to motivate and direct PMT objectives - Neglected trainer and/or trainee requirements	- Acceptable level of confidence and command presence - Competent motivation and expectation management - Managed trainer and/or trainee requirements	- Led by example underpinned in the AF Core Values - Inspired GMC and garnered mission accomplishment - Expertly identified necessary changes for optimal trainer and/or trainee requirements

NOTES:

MISSION: Understands mission requirements, reinforces importance of leadership/followership skills in laboratory environment, and meets assigned objectives/samples of behavior

Ineffective – 1	Satisfactory – 2	Highly Effective – 3
- Did not understand mission - Insufficient application of objectives into followership and/or leadership knowledge/performance requirements - Did not complete one or more training objectives	- Understood and articulated mission to Cadet Wing - Appropriate application of objectives into followership and/or leadership knowledge/performance requirements - Completed training objectives	- Expertly communicated mission and reinforced importance into laboratory environment - Choreographed mission into all facets of PMT - Seamlessly delivered all training objectives and samples of behavior

NOTES:

DEBRIEF: Reflects on individual and Cadet Wing performance (e.g., measures of performance) to complete objectives; develops lessons learned and incorporates into continuity, creates action items

Ineffective – 1	Satisfactory – 2	Highly Effective – 3
- Did not measure PMT performance - Insufficient application of debriefing objective into leading PMT environment - No after action report (AAR) and/or action items (AI) - Incomplete or no wrap-up discussion and/or meeting conducted	- Reflected on results and measured CW performance - Effective application of debriefing lesson objective into PMT environment - Conducted AAR and developed AIs - Closed PMT responsibilities through meeting and/or other means in line with business operations	- Expertly communicated performance to determine failures and successes - Created a PMT environment with observed GMC and POC feedback mechanisms - AAR and/or AIs identified root cause analysis on failed objectives and/or added to standard operating procedures - Conducted post-PMT meeting in line with business operations, solicited feedback and areas of improvement

NOTES:

ATTACHMENT 2 - CITATION TEMPLATES

AIR FORCE RESERVE OFFICER TRAINING CORPS
DETACHMENT XXX

THIS IS TO CERTIFY THAT

THE AIR FORCE ROTC ACHIEVEMENT AWARD

HAS BEEN AWARDED TO

CADET FOURTH CLASS JOHN F. DOE

FOR

OUTSTANDING ACHIEVEMENT

26 AUGUST 2023 TO 3 DECEMBER 2023

ACCOMPLISHMENTS

Cadet Fourth Class John F. Doe distinguished himself by outstanding achievement as Duty Title, Air Force Reserve Officer Training Corps Detachment XXX, City or University, State. The citation body will be written on this template in accordance with DAFMAN 36-2806 and the most current Air University Writing Guide with the intent to mirror the Air and Space Achievement Medal standards. The length of the citation should not exceed 1350 characters and be written in Courier New at 11 font size only. The opening and closing sentences provided are acceptable, although other options are provided in DAFMAN 36-2806. For compound grade titles, such as Cadet Fourth Class and so on, spell out the complete grade title in the opening sentence and then use the short title Cadet in the balance of the citation. Only authorized abbreviations and acronyms on the approved DAF abbreviations and acronyms list may be used. Award to no more than 15 percent of the corps each academic term. The accomplishments of Cadet Doe reflect credit upon himself and the United States Air Force Reserve Officer Training Corps Detachment XXX.

3 December 2023

AIR FORCE RESERVE OFFICER TRAINING CORPS
DETACHMENT XXX

THIS IS TO CERTIFY THAT

THE AIR FORCE ROTC COMMENDATION AWARD

HAS BEEN AWARDED TO

CADET THIRD CLASS JOHN F. DOE

FOR

MERITORIOUS SERVICE

26 AUGUST 2023 TO 3 DECEMBER 2023

ACCOMPLISHMENTS

Cadet Third Class John F. Doe distinguished himself by outstanding achievement as Duty Title, Air Force Reserve Officer Training Corps Detachment XXX, City or University, State. The citation body should be written on this template in accordance with DAFMAN 36-2806 and the most current Air University Writing Guide with the intent to mirror the Air and Space Commendation Medal standards. The length of the citation should not exceed 1350 characters and be written in Courier New at 11 font size only. The opening and closing sentences provided are acceptable, although other options are provided in DAFMAN 36-2806. For compound grade titles, such as Cadet Fourth Class and so on, spell out the complete grade title in the opening sentence and then use the short title Cadet in the balance of the citation. Only authorized abbreviations and acronyms on the approved DAF abbreviations and acronyms list may be used. The Air Force ROTC Commendation Award may be awarded to cadets each academic term, but per the AFROTCI 36-2011 must be reserved to no more than 10 percent of the corps. The distinctive accomplishments of Cadet Doe reflect credit upon himself and the United States Air Force Reserve Officer Training Corps Detachment XXX.

AIR FORCE RESERVE OFFICER TRAINING CORPS DETACHMENT XXX

THIS IS TO CERTIFY THAT

THE AIR FORCE ROTC MERITORIOUS SERVICE AWARD

FIRST OAK LEAF CLUSTER

HAS BEEN AWARDED TO

CADET CAPTAIN JOHN F. DOE

FOR

MERITORIOUS SERVICE

26 AUGUST 2023 TO 3 DECEMBER 2023

ACCOMPLISHMENTS

Cadet Captain John F. Doe distinguished himself in the performance of outstanding service to the Air Force Reserve Officer Training Corps Detachment XXX, City or University, State as the Cadet Duty Position. The citation body should be written on this template and in accordance with the most current DAFMAN 36-2806 and the Air University Writing Guide with the intent to mirror the Meritorious Service Medal standards. The length of the citation should not exceed 1350 characters and be written in Courier New at 11 font size only. The opening and closing sentences provided in this template are acceptable, although other options are provided in DAFMAN 36-2806. When using compound grade titles, such as Cadet Captain and so on, spell out the complete grade title in the opening sentence and then use the short title Cadet in the balance of the citation. Only authorized abbreviations and acronyms on the approved DAF abbreviations and acronyms list may be used. The Air Force ROTC Meritorious Service Award may be awarded to cadets each academic term, but according to AFROTCI 36-2011 must be reserved to no more than 5 percent of the corps. The singularly distinctive accomplishments of Cadet Doe reflect great credit upon himself and the United States Air Force Reserve Officer Training Corps Detachment XXX.

000 CW/CC Certified by: AFROTC Det 000 OFC, Rank, Name
(Captain Officer-in-Charge)

Supersedes: CADET WING OPERATIONS PLAN, DD MMM YY Page: ###

IAW AFROTCI 36-2011, Vol 3, *Cadet Operations* para 10.2.13. The OPLAN is designed to provide the Cadet Wing, or equivalent, an OFC approved training roadmap for a specific semester. At a minimum, OPLANs must include:

10.2.13.1. When the required training objectives are to be presented within the semester. If any training objectives for the academic year will not be presented during the semester, the current OPLAN must account for these missed objectives in either a previous or subsequent OPLAN that falls within the same academic year.

10.2.13.2. When concurrently enrolled cadets (e.g., AS250 Cadets) are to be presented all required training objectives IAW the current academic year's AFROTCI 36-2011, Vol 1.

10.2.13.3. The authorized positions for POC Cadets to include the organizational chart, leadership position designation, and duty descriptions.

10.2.13.4. The plan for the Cadet Wing, or equivalent, to acquire and track attendance for all Mandatory PMT events.

The OPLAN content is highly adjustable to what the detachment feels is necessary apart from the AFROTCI 36-2011 required items and the following:

Example Indorsement Line

1. MISSION. The mission of the 000th Air Force Reserve Officer Training Corps Cadet Wing is to successfully complete all AFROTC objectives in order to develop leadership qualities that will enable cadets to become future Air Force (*or Space Force*) officers. To fulfill this mission, the Cadet Wing will conduct training that augments the Holm Center's academic curriculum by providing prospective Air Force (*or Space Force*) officers opportunities and feedback needed to develop the leadership, managerial, and supervisory skills required of successful Air Force (*or Space Force*) officers. The goals of the AFROTC LLAB curriculum are:

Provide first-year cadets an informative and motivational program designed to recruit, retain, and familiarize cadets with the Air Force (*or Space Force*) way of life and foster leadership, followership, teamwork, and esprit de corps.

1.1. Provide cadets scheduled to attend FT with the mental and physical skills needed to succeed in the AFROTC FT environment.

1.2. Provide cadets returning from FT sufficient opportunities to demonstrate and develop the leadership and management skills needed to successfully function as active duty officers.

1.3. Provide cadets to be commissioned additional opportunities to demonstrate and develop the leadership and management skills needed to successfully function as an active duty officer and to adequately prepare them to transition from the AFROTC environment to active duty.

Example Cadet Wing Position Descriptions

000th Cadet Wing Position Descriptions

CADET WING STAFF

Cadet Wing Commander - CW/CC

Reports to: Operations Flight Commander

Function: Directs and is responsible for all actions within the Cadet Wing.

Duties: The CW/CC is responsible for:

- Accomplishment of all tasks as stated in the Mission Directive.
- Enforcing all job descriptions within the Cadet Wing as stated within this document.
- Conducting staff meetings as required with all key cadet officer personnel.
- Maintaining appearance, discipline, effectiveness, training, and conduct of the Cadet Wing in accordance with the standards of all AFROTC regulations.
- Leading the POC and GMC in accomplishment of the detachment mission and greater AFROTC mission.
- Effectively delegating to and supervising the CW/CD, IG, OG/CC, TRG/CC, and MSG/CC.
- Performing other duties as assigned.

Deliverables:

- Cadet Wing OPLAN, Cadet Wing Detachment Policy, Continuity Binder, Submit Weekly WAR to OFC.

Cadet Wing Deputy Commander - CW/CD

Reports to: CW/CC

Function: To advise & support CW/CC in the direction of all actions for the Cadet Wing.

Duties: The CW/CD is responsible for:

- Assuming command of the Cadet Wing in the absence of the CW/CC.
- Submitting a weekly hard copy report at the end of LLAB to the OFC detailing the attendance of the wing IAW AFROTCI 36-2011 Section 9.10.1. Should any cadet fall under 80% attendance the OFC will be notified.
- Planning, running, and facilitating discussion for Wing Staff meetings. Review notes with Wing Staff and Cadre to implement changes. Additionally, follow up on how the changes have been implemented.
- Taking notes during LLAB based on what training was supposed to accomplish, if it was

- accomplished, if an objective must be revisited, and how it can be improved for the future.
- Supervising training and staff performance while enforcing CW/CC policies and Wing policies according to AFROTCI 36-2010, AFROTCI 36-2011, Vol 1, *Cadet's Guide to Leadership Laboratory (LLAB) Curriculum,* DAFMAN 36-2905, *Fitness Program* and DAFI 91-202, *Mishap Prevention Program*.
- Monitor Cadet "Failure to Perform" files along with CW/IG.
- Being an extension of the Wing Commander to alleviate workload and performing other duties as assigned.

Deliverables:

- Performance Folders, Morale Reports, Submit Weekly WAR to CW/CC, Continuity Binder

ATTACHMENT 4 - OPERATIONS ORDER TEMPLATE

SCHOOL		**DATE**
	Air Force ROTC Detachment XXX **Practical Military Training Operations Order (PMT OPORD)**	Det logo here
1. Situation: **PMT Explanation**	All activities listed are considered PMT events. IAW AFROTCI 36-2011, para 10.3. PMT for AFROTC includes LLAB, PT, FT and Officer Development Training (ODT). PMT is AFROTC-sponsored training that is uniquely military and meets the requirements in Title 10 U.S.C. 2109. mPMT: any AFROTC sponsored training activity designed to present training objectives; vPMT: any sponsored military related training activity that the Det CC designates as voluntary PMT.	
Guidance	All cadets have access to the following instructions: - AFROTCI 36-2011, *Cadet Operations* - T-509, *Cadet's Guide to LLAB Curriculum*	

1. Mission	**Week XX/ Type of PMT (LLAB/ PT/ Other specified)**				
a. Background	**Voluntary of Mandatory PMT**		**b. Date/Time**

MEMORANDUM FOR AFROTC DET XXX CW/CC [Office symbol for 1st Indorsement] FROM:

AFROTC DET XXX CW/CD [Originator]

SUBJECT: Indorsement Memorandum Format

1. The indorsement memorandum is useful when documented history of action is required, such as when gathering formal comments for a document or in handling legal and disciplinary actions. As such, indorse official memorandums only, not personal letters.

a. Use the indorsement format within or between U.S. military organizations or between U.S. military organizations and civilian organizations under contract with the Air Force (*or Space Force*). When space allows, place indorsements on the original memorandum or a previous indorsement page.

b. Number each indorsement in sequence (1st Ind, 2d Ind, 3d Ind,…). Begin the first indorsement on the second line below the last element of the previous indorsement. Follow the indorsement number with your office symbol.

2. Please send this sample to the AFROTC DET XXX/OFC for his indorsement. If you have any further questions, you can reach me at (555) 888-9999 or detxxxcwcd@gmail.com.

FT Drill Evaluation Instructions

General Guidance:

Trainees are evaluated on their leadership ability and drill capability while performing as FLT/CC. The FLT/CC will control a flight of 12 cadets and guidon bearer (total 13 members). A second evaluation opportunity can be granted at the discretion of the Squadron Commander or higher for extenuating circumstances. Poor performance is not considered an extenuating circumstance. All trainees in an encampment must be evaluated at a comparable location (size, grade, surface type, etc.) with comparable flight sizes. Trainees are not required to follow the sequence listed on the drill evaluation card, but all required movements must be accomplished in the allotted time. Trainees have the authority to add and arrange commands/movements as they see fit. There will be a primary and secondary evaluator per drill pad to ensure all boundaries are being monitored. Flights will be arranged in 3 elements, 4 ranks deep. Final sizes will be clarified to suit the size of the drill pad and are at the discretion of the FDE evaluator.

Set Up: (Conducted by FDE Staff)

1. Equipment:
    a. Primary Evaluator clipboards: drill card packets, FDE score sheets, drill evaluation card packets, stopwatch, and writing utensil.
    b. Prepare Secondary Evaluator clipboards: laminated FDE form, and erasable marker and paper towels.
    c. Prepare four cones per drill pads.
2. Drill pad will be a minimum of 40'x40' on predominantly flat, level surface.

Procedures: (For Evaluators)

1. The Evaluator will introduce themselves and read the following instructions to the cadet being evaluated:
    a. After this briefing you will be provided a drill card with a list of movements and given five minutes to command your flight through those movements.
    b. You have a one-minute planning period to review the drill card, ask questions and to arrange your flight anywhere within your assigned drill pad.
    c. Once the one-minute planning period is up, you will report in using the following statement: "Sir/ Ma'am _____ Flight is ready for drill evaluation."
    d. The five-minute timer will start once you've called your first drill movement.
    e. You can reference the drill card an unlimited number of times.
    f. Movements may be completed in any order.
    g. If you break a boundary, return to the drill area and continue the evaluation.
    h. Once you have completed all the movements on the drill card, you will report out using the following statement: "Sir/ Ma'am _____ Flight has completed the drill evaluation."
2. The evaluator will keep time and indicate when time has expired.
3. If the Cadet exceeds the five-minute time limit, step in and state: "Due to time constraints, the evaluation is terminated."
4. Debrief the Cadet and review their FDE performance with them.
5. Once complete, have the cadet rejoin the ranks and call the next cadet for evaluation.

ATTACHMENT 8 – DEBRIEF FORMAT

DEBRIEF FORMAT

PURPOSE

Debriefing is defined as the reconstruction and evaluation of an event to determine how to replicate success and avoid repeat mistakes. A successful debrief depends on the ability to critically analyze events and the willingness to admit mistakes. The debrief process should encompass a review of events, identification of problems, determination of root causes and development of lessons learned. Immediately following an evaluated event, Cadet Team Leads will conduct a team debrief (2 mins max), followed by a debrief with the evaluator (1 min max). The evaluator will then provide feedback to the Cadet Team Lead (2 mins max).

TEAM LEAD	MAX/TRAINING DAY

What was the mission? Did your team complete the mission? If not, what were the primary causes of mission failure?
What did the team do well? How can those skills be used in the future to improve yourself and the team?
What did not go well? What can both the leader and the team do better to ensure success moving forward?

EXECUTION

Comments Mandatory for any 'Does Not Meet' Marks: *= Must observe

[ ] Perseverance - No commitment to difficult goals -- Rattled from setback -- Poor penalty recovery
[ ] Flexibility - Didn't consider alternatives -- Didn't respond quickly to change -- Didn't modify approach
[ ] Resilience - Didn't recover quickly -- Had trouble with difficult times -- Didn't withstand stressors
[ ] *Self Control - Didn't keep emotions under control -- Displayed negative action -- Impulsiveness
[ ] Change Management - Didn't involve others or build support for change -- Didn't contribute to change

[ ] *Communication - Didn't communicate with sensitivity -- Poor communication -- No communication
[ ] *Teamwork - Didn't help team work toward goals -- Hoarded information
[ ] Develops People - Didn't assess members' competencies -- No helpful advice to improve individuals
[ ] Service Mindset - Not available to team -- Didn't express positive expectations -- No care for welfare
[ ] Fosters Inclusion - Allowed a member's personality to impact event -- Allowed inappropriateness

[ ] *Information Seeking - Didn't solicit perspectives -- Didn't ask enough questions -- Didn't refer to taskcard
[ ] Initiative - Didn't prevent problems -- Didn't address problems -- Didn't create/act on opportunities
[ ] *Analytical Thinking - Didn't break down task -- No system/plan -- No recognition of consequences
[ ] Creative Thinking - Didn't identify novel alternatives -- Not creative -- Didn't question existing method

[ ] *Decision Making* - Didn't consider risks and benefits before acting -- Didn't make key decisions
[ ] Fosters Innovation - Didn't [solicit | welcome] new ideas -- Didn't encourage different perspectives
[ ] *Influence - Didn't build support for ideas -- Didn't appeal to ideals/values -- Low influential presence
[ ] Moral/Physical Courage - Didn't do the right thing -- Avoided [pain -- fear -- danger -- uncertainty]

[ ] Accountability - Didn't take responsibility for the actions & behaviors of [self -- team]
[ ] *Resource Management - Wasted or misused [time -- people -- equipment]
[ ] Results Focused - Didn't work diligently -- Lost dedication to goal -- Lack of positive contribution
[ ] Precision - Inaccurate understanding -- Uncorrected errors -- Didn't follow directions -- ROE violations
[ ] Hardiness of Spirit - No stout internal force -- Broke down -- Froze under pressure -- Gave up

OTS Form 2, 20240119

OFFICER LEADERSHIP ATTRIBUTE ASSESSMENT

Form 2 Instructions:

- All sections in part A and B must be completed.
- The major areas of Professionalism, Communication, Warfighting, Leadership, and Mission Execution contain sub-areas from the Air Force and Space Force Foundational Competencies.
- For each sub-area, cadets will be scored as a "+1" if they meet or exceed the required proficiency, a "-1" if they do not meet the proficiency, or a "0" if the behavior was not observed.
- For each major area, the score will be a "+1" if the sum of the sub-areas is greater than or equal to 1. If the sum of the sub areas is equal to 0, the major area score will be "0". If the sum of the sub areas is less than 0, the major area will be scored "-1".
- The Major Area Scores are then tallied for the overall OLA Competency Score. Cadets are required to score a +1 or higher to pass the evaluation

EXAMPLE: Under PROFESSIONALISM, if an instructor observes and grades the following, the major area grade will be a "+1"

Traits in the "The Leader of Character" section are pass/fail. The default grade for each area is "pass" unless the cadet being evaluated demonstrates obvious behaviors counter to the trait. For example, if the cadet being evaluated berates a teammate or does not address a subordinate who aggressively demeans someone, the evaluatee may earn a failure. A leader who willfully does not attempt to exceed the bare minimums without justification may also earn a failure.
Both the evaluator and evaluated cadet will sign the paper Form 2.

OTS Form 2, 20240119
AFROTC Modified 24 Jan 25

BASIC Competency Level - Sustains application of competency over time; Demonstrates influence across individuals and among peers.	
Airman [reference to AFH 36-2647] - Guardian Competency [reference to USSF Competency Framework Oct 22]	
Professionalism	
P1 - 1.2. Perseverance - 2.6. Promote Autonomy	Persists after criticism; Keeps at it when trying to learn something challenging.
P2 - 1.6. Flexibility - 1.9. Adapt	Changes approach when current approach is not working; Modifies approach based on feedback from others.
P3 - 1.7. Resilience - 3.7. Be Resilient	Deals with stressful situations one step at a time; Maintains an evident work/life balance; The ability to withstand, recover, and grow in the face of stressors and changing demands.
P4 - 1.9. Self-Control - 2.3. Demonstrate Humility	Resists the temptation to engage in inappropriate involvement or impulsive behavior; Communicates concern without raising one's voice.
P5 - 4.3. Change Management - 1.8. Manage Change	Recognizes the long-term benefits of organizational change; Supports and adapts to change initiated by others.
Communication	
C1 - 1.3. Communication - 2.4 Communicate Effectively	Conveys information clearly and concisely to team members; Uses pictures to communicate what words can't clearly convey.
C2 - 2.1. Teamwork - 2.7. Foster Cooperation	Acknowledges contributions made by others on the team; Participates during team activities while working toward a goal.
C3 - 2.2. Develops People - 2.5. Develop Others	Explains how to do a task; makes specific helpful suggestions; Gives detailed instructions and/or on-the-job demonstrations.
C4 - 2.3. Service Mindset - 1.11. Trust in Teammates	Expresses genuine concern for the welfare of others; Lends a helping hand to team members when needed.
Warfighting	
W1 - 1.5. Information Seeking - 1.10 Demonstrate Curiosity / 1.4. Learn and Improve	Asks direct questions and consults available resources; Asks questions to clarify information, when needed.
W2 - 1.8 Initiative - 3.1. Demonstrate Initiative	Completes assignments without close supervision; Displays good effort in performance of assigned tasks.
W3 - 3.1. Analytical Thinking - 3.5. Think Analytically	Breaks problems into simple tasks or activities; Sets priorities for tasks in order of importance.
W4 - 3.2. Digital Literacy - 3.3. Be Digital Literate	Follows organizational protocols for use of electronic devices; Gets help for computer system problems, as needed; Participates in online training.
W5 - 3.3. Creative Thinking - 1.7. Engage Creatively	Applies learned concepts or methods to new situations; Considers previous solutions to generate ideas.
Leadership (2.4.)	
L1 - 1.4. Decision Making - 1.3. Use Problem Solving Skills	Investigates the facts as part of the decision-making process; Allows sufficient time to gain others' input before making a decision.
L2 - 3.4. Fostering Innovation - 3.6. Embrace Risk	Demonstrates openness to and support of different innovative change ideas; Considers innovative ideas generated by others.
L3 - 3.5. Influence - 3.4. Network	Gains buy-in by seeking input from others; Uses facts to support own point of view when meeting with team members.
L4 - 4.4. Strategic Thinking - 3.2. Recognize Opportunities / 1.2. Champion a Vision	Considers how hierarchies, roles, and relationships influence specific problems; Articulates both short-term and long-term goals.
L5 - AFTTP 3-4. Moral/Physical Courage	Moral - The power and determination to follow what one believes to be right, regardless of cost to oneself. Physical - The observable actions one takes when faced with fear, pain, uncertainty, or danger.
Mission Execution	
M1 - 1.1. Accountability - 2.1. Be Accountable to Others	Adheres to Air Force Standards; Looks after fellow Airman and their families.
M2 - 4.1. Resource Management - 1.6. Effectively Plan and Organize	Organizes resources to execute the mission; Follows Air Force resourcing processes.
M3 - 4.2. Results Focused - 1.5. Advocate Boldly	Ensures projects within areas of specific responsibility are completed in a timely manner; Meets established suspense.
M4 - 4.5. Precision - 1.1. Recognize Patterns and Interactions	Follows logical order for completing tasks to meet short-term goals; Maintains organized files or materials.
M5 - AFTTP 3-4. Hardiness of Spirit	The stout internal force used to get through challenging times mentally or physically.

BASIC

INTERMEDIATE Competency Level - Sustains application of competency over time in a variety of situations; Demonstrates influence across work center and at the tactical level.	
Airman [reference to AFH 36-2647] - Guardian Competency [reference to USSF Competency Framework Oct 22]	
Professionalism	
P1 - 1.2. Perseverance - 2.6. Promote Autonomy	Displays commitment to achieving difficult work goals in challenging environments; Overcomes setbacks in order to achieve goals.
P2 - 1.6. Flexibility - 1.9. Adapt	Prioritizes, considers alternatives, and responds quickly and effectively to unexpected and rapidly changing conditions; Changes own behavior or approach to suit the situation.
P3 - 1.7. Resilience - 3.7. Be Resilient	Comes through difficult times with little trouble; Recovers quickly from a singular stressful event; The ability to withstand, recover, and grow in the face of stressors and changing demands.
P4 - 1.9. Self-Control - 2.3. Demonstrate Humility	Waits until an appropriate time to present ideas; Re-engages discussions or other processes calmly after initial conflict.
P5 - 4.3. Change Management - 1.8. Manage Change	Involves others and shares information to build understanding and support for change; Demonstrates willingness to make significant contributions to change.
Communication	
C1 - 1.3. Communication - 2.4 Communicate Effectively	Communicates with sensitivity to others' needs of the moment; Tailors messaging and briefings to address identified concerns of the audience.
C2 - 2.1. Teamwork - 2.7. Foster Cooperation	Helps other team members work toward team goals; Freely shares information with others on the team.
C3 - 2.2. Develops People - 2.5. Develop Others	Assess competency of others, provides tools to improve that competency; Provides helpful advice about improving an individual's performance.
C4 - 2.3. Service Mindset - 1.11. Trust in Teammates	Makes self fully available when others are going through a critical period; Expresses positive expectations about others.
Warfighting	
W1 - 1.5. Information Seeking - 1.10 Demonstrate Curiosity / 1.4. Learn and Improve	Calls on others, who are not personally involved, to get their perspective, background information, or experience; Asks probing questions to get to a root of a situation or problem.
W2 - 1.8 Initiative - 3.1. Demonstrate Initiative	Recognizes and acts on present opportunities or addresses present problems; Takes action to create opportunities or avoid problems.
W3 - 3.1. Analytical Thinking - 3.5. Think Analytically	Breaks down a complex task into manageable parts in a systemic way; Recognizes several likely causes of events or several consequences of actions.
W4 - 3.2. Digital Literacy - 3.3. Be Digital Literate	Uses internet to learn on their own; Uses common shortcut keys to minimize typing; Protects personal information shared on social networking sites or other online forums.
W5 - 3.3. Creative Thinking - 1.7. Engage Creatively	Applies and modifies complex learned concepts or methods appropriately; Questions existing methods or processes and identifies novel alternatives.
Leadership (2.4.)	
L1 - 1.4. Decision Making - 1.3. Use Problem Solving Skills	Takes time to consider the risks and benefits of a situation before making a decision; Identifies key decisions within an area of responsibility.
L2 - 3.4. Fostering Innovation - 3.6. Embrace Risk	Encourages diverse perspectives and differing points of view; Welcomes the implementation of new ideas.
L3 - 3.5. Influence - 3.4. Network	Uses experts and other influence tactics to build support for ideas; Appeals to ideals or values to overcome resistance and sway opinions of others.
L4 - 4.4. Strategic Thinking - 3.2. Recognize Opportunities / 1.2. Champion a Vision	Considers issues from the perspective of more senior leadership; Plans for the future rather than leaving things to chance.
L5 - AFTTP 3-4. Moral/Physical Courage	Moral - The power and determination to follow what one believes to be right, regardless of cost to oneself. Physical - The observable actions one takes when faced with fear, pain, uncertainty, or danger.
Mission Execution	
M1 - 1.1. Accountability - 2.1. Be Accountable to Others	Follows through on promises and commitments; Embodies the Air Force Core Values and Guardian Commitment.
M2 - 4.1. Resource Management - 1.6. Effectively Plan and Organize	Manages the allocation of resources in relation to organizational needs; Uses available resources wisely.
M3 - 4.2. Results Focused - 1.5. Advocate Boldly	Accomplishes work projects diligently; Actively strives to make a positive contribution through one's efforts.
M4 - 4.5. Precision - 1.1. Recognize Patterns and Interactions	Double checks accuracy of information and own work; Carefully follows directions.
M5 - AFTTP 3-4. Hardiness of Spirit	The stout internal force used to get through challenging times mentally or physically.
